District Contact List

This list is maintained as the authoritative source of contact information for North Shore District. If you are aware of incorrect or missing information, please send a note to contactlistupdates@northshorebsa.org

To access the latest North Shore District contact list, you will be prompted for your district ID. You may obtain this ID from your unit leader, unit commissioner, or a member of the district committee.

The contact list is accessible in two forms. One is a web page with tabs at the bottom for the different sections (pages) of the list. The other is an Excel spreadsheet. The first page of the list contains versioning information, so you can know how recent it is.
