As a Venturing leader, you're working with older youth as they begin to establish their own sense of direction, shaping the program to their own needs. North Shore is committed to helping YOU have the tools you need to assist them in deliver a great program. That's what our training program is all about.

If you're new to Venturing, you'll want to know where to start. Our Venturing Advisor Training Roadmap is the place to begin.

After you've completed the basic training for your position, there are additional training opportunities for adults such as Wood Badge.

Check our calendar or the links below for upcoming training events. If you have questions, check the latest North Shore training news , the below links, or contact the North Shore Training Committee.
